

Initial Clean Checklist

Please see add-ons to make this a Deep Cleaning or a Spring Cleaning.

An initial clean is somewhat more thorough than a standard cleaning and takes more time. We like to spend time cleaning all surfaces that need attention so that our future cleaning is simpler. Therefore, this list is similar to the **Standard Cleaning Checklist**. Please refer to the last part to see what you can **add-on**. This cleaning is charged by **hour** per cleaner.

Notes:

- We move small furniture if it is sturdy and clear from clutter
- We conduct rotational tasks if needed to manage time and make sure we take care of everything over time
- We do not move large furniture or anything that is unstable or cannot be picked up by one person
- We clean to a height reached by only a one-step stool unless a team is present and a small step-ladder is provided
- You are welcome to move large furniture for us to clean behind

- We aim for a high standard of cleaning, but do not guarantee perfection as we employ human beings that work very hard but occasionally might miss a speck or two
- We offer as **SERVICE GURANTEEE** wherein you must report any issues within **ONE** business day so we can come fix it
- We do not offer discounts or refunds as cleaning is subjective
- We are only a phone call away to discussing your needs and wants
